

# ANTI-BACK WASH TECHNOLOGY

*PREVENTS CONTAMINATION*

## SinuCleanse®

SAFE & IMMEDIATE SINUS RELIEF NATURALLY

SinuCleanse® has revolutionized the nasal washing industry by developing all its products with anti-back wash technology to prevent the contamination of saline solution while nasal washing. Specially designed anti-back wash valves create a one-way flow of saline solution, inhibiting bacteria and mucus from entering clean solution and re-infecting the user.
