## **SINUCLEANSE® TESTIMONIALS**

"The SinuCleanse® system arrived today. One half hour later I could actually breathe through each nostril. After about five years, it's nice to be able to do that again. The SinuCleanse® system is one of those products that actually does what the advertisements say they do. Remarkable."- R. Knauf

"I am writing to let you know that I have been using the SinuCleanse® system for over 3 years. When I started having sinus infections, my ENT specialist suggested that the cause might be allergies. I was referred to another specialist. She recommended that I use your product, along with other therapies. I have been very pleased with the results and ease of use. I use it once or twice a day. I recommended the SinuCleanse® system to my primary care physician, who now recommends it to his other patients. I'm glad my doctor told me about it and that I decided to follow her advice." - David Craig

"To the makers of the SinuCleanse® system: Thank you for your wonderful product. I have been using it for a little over a year and a half and have only suffered one sinus infection during that time. This is compared to my normal of about five or six sinus infections each year! I have given my friends copies of your order form and I know of at least three other people who have ordered their own. They say it is the best investment they have ever made. I was amazed at how easy the SinuCleanse® system is to use with the pre-measured packets that I also ordered. It sure is easier than mixing your own solution. My neighbor, who also ordered the SinuCleanse® nasal wash recently ran out of packets and asked if she could borrow some until her reorder came in the mail. Your company is so great about shipping, she returned a replacement to me within a week. That is great turnaround time! Thank you again for a great product!" - Beth Cadieux, Ashburn, VA

"As a distributor of the the SinuCleanse® system, we receive letters from customers on a regular basis thanking us for selling the SinuCleanse® nasal wash. Many people have said that they were unable to find antibiotics that offered relief, but the neti pot system has naturally cured their sinus and allergy ailments. We've seen the demand for nasal wash systems increase by 10-15 percent this past year."- Tom Korula Owner, ByThePlanet.com, Memphis, TN Product Distributor

"I've had chronic sinusitis for the last 14-15 years and have tried everything from Claritin to Flonase, sprays to antibiotics and nothing was effective. In addition, the side effects of the various medicines (dizziness,

drowsiness, etc.) were not worth it. I found the SinuCleanse® system and use it once a day and sometimes up to three times a day and I can finally breathe again!" -Jim O'Neill, Minneapolis, MN

"My son who is now 12 has suffered for years with what we thought were allergies. The doctors had him on so many different medicines I have lost track. They finally concluded that he was not actually allergic to anything just had the symptoms of allergies. At this point they had him on Zyrtec D 2x a day and 2 different prescription nasal sprays. Nothing worked not only could he still not breathe but he was not quite himself on all the meds. He was tired, playing sports was an effort. His was definitely not enjoying the quality of life that a smart athletic 12 year old should. Well life has since changed for him thanks to your Sinucleanse. As soon as he was tried it, he looked at me with such happiness and said "I can breathe". He has been doing it faithfully 2x a day ever since. Not one sinus infection, (we would have had several by now) and his quality of life has improved more than I can ever say! Thanks for such a great product." -Ruth Zukowski, Lindenhurst, NY
