Med-Systems Launches SinuCleanse NetiCap

August 25, 2011

By Michael Johnsen

MADISON, Wis. — Med-Systems recently launched the SinuCleanse NetiCap that transforms most water bottles into an instant on-the-go neti pot.

“More and more consumers are embracing the neti pot as a solution for their sinus congestion,” stated Dave Gallo, Med-Systems CEO. “The NetiCap product is an evolution of this product, allowing for simpler and more convenient use.”

The twist-on, comfortable NetiCap comes in a package of two and includes instructions for use and 10 saline packets.
